UNLOCK OPPORTUNITIES IN THE LIVESTOCK SECTOR WITH AGRILIVESTOCK MYANMAR 2022

Myanmar's No.1 International Livestock, Feed & Agriculture Industry Exhibition is back for its 2022 edition. Held at the MEP Mindama in Yangon from 2 to 4 December 2022, the International Exhibition brings together all the relevant stakeholders of the livestock, feed and agriculture industry under one roof.

Over 250 companies and brands from 12 countries are expected to join the Show, showcasing a wide range of the latest products, solutions and technologies to improve the efficiency and productivity of Myanmar's livestock industry. The Expo is expected to attract thousands of industry professionals from across the country representing the entire value chain, including integrators, livestock and aquaculture farmers, feed millers, wholesalers, retailers, importers, distributors and more.

Strategically located within ASEAN and in between China and India, growth has been rapidly picking up in Myanmar. According to the World Bank, Myanmar's economy is projected to grow by 6.6% in 2020, 6.7% in 2021, and 6.8% in 2022. However, climate change has been posing a challenge to the development of the livestock industry. There is an urgent need to promote sustainable advancements in the livestock industry and build resilient farming systems. Poultry breeding businesses are now also increasingly shifting to modern farming techniques.

With the Myanmar Government attempting to improve the country's business climate by enacting regulatory reforms to attract investors, 2021 is the best time to capitalise on demands in Myanmar's livestock industry. Don't miss out on this invaluable event! Unlock opportunities in Myanmar's livestock sector with AGRILIVESTOCK MYANMAR 2022 today! Book a booth by contacting Ms May at may@ambtarsus.com.

“ We were able to meet many new customers. It is good for our company promotion. ”

Mr. Kyaw Zwar Nyunt, Senior Manager
AMTT CO.,LTD

6 REASONS WHY AGRILIVESTOCK MYANMAR IS THE MARKETING PLATFORM FOR YOU

MEET over 6,000 professionals in Myanmar's livestock, feed and agriculture industry

SOURCE for new distributors, agents, and strategic partners in Myanmar

BOOST your company branding & market positioning

GAIN in-depth knowledge on the latest industry updates in the local and global scenes

INTRODUCE the latest innovations through new product launches and promotional campaigns

BUILD lucrative partnerships through this business networking platform

AGRILIVESTOCK MYANMAR CONFERENCE 2022

“TOWARDS A CLIMATE-SMART LIVESTOCK INDUSTRY”

Co-located with the Expo is the AGRILIVESTOCK MYANMAR CONFERENCE 2022, a forum for encouraging the exchange of knowledge, experience and ideas regarding the challenges Myanmar is facing in the livestock industry. The forum will also highlight steps that can be taken to overcome these issues.

This platform will be filled with informative discussions presented by international speakers from the world's leading companies in the livestock industry. Many figures from the major public and private sectors of Myanmar will be attending the conference. If you are interested to find out more about the conference, or if you would like to participate in making a presentation, please submit the title and synopsis of your presentation to Ms May at may@ambtarsus.com.

MARKET UPDATES

- The Livestock and Fisheries sector contributed 26% to Myanmar's total Agricultural GDP.
- Myanmar has 20.2 million cattle/ buffalo, 16.5 million pigs, and 8.8 million goats and sheep which are feeding an increasing urban population.
- Myanmar's Ministry of Agriculture, Livestock and Irrigation (MoALI), the Asia Development Bank (ADB), the UN's Food and Agricultural Organisation (FAO) and the Livelihoods and Food Security Trust Fund, launched a five-year Agriculture Development Strategy (ADS) in June 2018. The Strategy aims to enhance the capacity of the Government to design, create and implement policies and plans, increase agricultural productivity and income of smallholder farmers, and enhance market linkages and competitiveness of Myanmar's farmers and agro enterprises.
- Supplying more than 85% of Myanmar's animal protein consumption, the pork and poultry industry represents a substantial portion the economy.
- The African Swine Fever (ASF) has opened up a US\$800 million opportunity to modernise farms and upgrade Myanmar's pork supply chain infrastructure.
